

**Three spaces that
come together to create
a well balanced work-life
environment**

A freehold development of 2.51 acres.

At The Hub, work is inspired by life, and life is inspired by work.

You no longer need to separate work from your personal life as though they were jealous lovers competing for your attention. You want both, and you deserve both. At The Hub, they are best of friends.

The Hub is a next generation versatile Signature Suites and Retail Offices designed for people who pride themselves on being different from the rest. This freehold development of 2.51 acres contains two components – 13 units of 2½-storey Retail Offices and 276 units of Signature Suites, set in well-balanced landscaping – all to inspire perfect work-life balance.

Realising that inspiration is as essential to your work as water is to plants, we have designed the landscape around your thinking, working and connecting spaces to put you in a great state of body and mind in order to work better. To further ensure that your life runs as smoothly as possible, The Hub is also designed to be earthquake resistant using international standards.

A thoughtfully integrated environment

thinking spaces

These are facilities for quiet contemplation, and private conducive environments to refine your business ideas, strategies and plans. You may find that your mind might work better at the gym, perhaps the pool deck, or in the calmness of the lush landscape. Take your pick.

working spaces

Choose a low-rise Retail Office space, or a high-rise tower of Signature Suites available in several versatile configurations – micro-unit, loft, 1-room and 2-room suites, all equipped with fibre-optic cables. Work comfortably at any time of the day or night.

connecting spaces

Here, we've allocated open areas, sheltered spaces overlooking beautiful landscapes, sculptures, and wide corridors, all specifically designed to inspire and connect you with people and nature, in an environment buzzing with good energy.
