

CLIMATE CHANGE POLICY

Selangor Dredging Berhad
196201000105 (4624-U)

Selangor Dredging Berhad (“SDB” or ‘the Group’) recognises climate change as a critical challenge that requires urgent action. As a responsible property developer, we are committed to integrating climate resilience into our business operations and developments.

This Climate Change Policy aligns with our Sustainability Policy and ongoing ESG commitments, ensuring that we actively contribute to mitigating climate change while adapting to its impacts in order to sustain our business. This policy should be read together with SDB’s Sustainability Policy.

1. RELEVANCE OF CLIMATE CHANGE

- 1.1 For SDB’s businesses, the impacts of climate change – such as changes in rainfall patterns – can lead to droughts in some areas and floods in others, and thus disrupting our operations in construction sites and homeowners’ livelihood in completed developments.

2. SCOPE

- 2.1 This climate change policy is applicable to all companies in the Group.

3. POLICY STATEMENT

- 3.1 In recognising the importance of mitigating and adapting to the effects of climate change, the Group is committed to adopting a holistic approach in undertaking and managing the Group’s businesses and operations by upholding the Economic, Environmental, Social and Governance (“EESG”) aspects of sustainability to ensure carbon reduction can be achieved in tandem with economic growth.
- 3.2 SDB’s Board of Directors oversees the Group’s Climate-Related Risks and Opportunities, integrating them into strategic decision-making.

4. GOVERNANCE AND OVERSIGHT

- 4.1 The Group’s Risk Management and Sustainability Committee (RMSC), assisted by the ESG Working Committee is responsible for implementing and monitoring climate-related initiatives, ensuring alignment with our business objectives.

5
COMMITMENT TO
CLIMATE RESILIENCE

- SDB continues to evolve and adapt in contributing to mitigating climate change risks. Actions include but are not limited to:
- 5.1 Strictly follow environmental laws and regulations and ensure compliance
 - 5.1 Encourage measures for efficient energy consumption in operations
 - 5.1 Reducing energy usage through sustainable building designs
 - 5.1 Setting targets to measure, monitor and reduce our carbon emissions
 - 5.1 Collaborate with relevant stakeholders for climate actions or initiatives
 - 5.1 Encourage resource recycling for sustainable resource usage
 - 5.1 Encourage value chain partners to implement best practices

6.
PERIODIC REVIEW

- 6.1 The Policy shall be periodically reviewed and updated where necessary, to align with Group’s needs and any regulatory changes that may have an impact to the Policy.

7.
CONCLUSION

- 7.1 Selangor Dredging Berhad is committed to playing a proactive role in combating climate change. Through responsible property development, sustainable business practices, and industry collaboration, we aim to build a more resilient and low-carbon future for all stakeholders.
